

GENERAL ORGANICS®

BioMarine® 2-3-1 contains a cold processed, enzymatically digested squid protein that boosts plant growth and provides a nutrient source for microorganisms. This squid-based fertilizer promotes vigorous roots, stems, foliage, flowers, and fruits. A superior source of plant nutrition, BioMarine suits all types of plants during all phases of growth, from seedling through harvest.

General Organics provides gardeners with a superior line of plant foods and supplements. Each product in the "GO" line enables you to enrich your garden, your life, and the planet. Our commitment is to provide simple and innovative products with unsurpassed quality. This product contains no added microbes.

Usage:

For Light Feeding:

Add 2 teaspoons of BioMarine per gallon of water

For Heavy Feeding:

Add 4 teaspoons of BioMarine per gallon of water

These values represent standalone use of this product. When mixing with additional products or base nutrients, please refer to generalorganics.com for complete Feed Programs.
