

BioRoot® 0-1-1 is a plant growth supplement that helps plants establish vibrant, vigorous root systems. BioRoot is a unique blend of plant derived nutrients, seaweed, mined minerals and mined mineral derivatives. BioRoot is outstanding for seedlings and cuttings as well as all phases of plant growth. Use BioRoot with all types of plants growing in all kinds of garden soils and potting mixes. Works with all plant foods.

General Organics provides gardeners with a superior line of plant foods and supplements. Each product in the "GO" line enables you to enrich your garden, your life, and the planet. Our commitment is to provide simple and innovative products with unsurpassed quality. This product contains no added microbes.

Usage:

For Light Feeding:

Add 1 teaspoon of BioRoot per gallon of water.

For Heavy Feeding:

Add 2 teaspoons of BioRoot per gallon of water.

These values represent standalone use of this product. When mixing with additional products or base nutrients, please refer to generalorganics.com for complete Feed Programs.
