

FloralNectar® - Growing plants convert sunlight, water and minerals into sugar. FloraNectar is formulated with a combination of minerals and natural sugars. Simply Sweeter!

Usage:

During Vegetative growth apply:
5 ml (1 tsp) per 3.79L (1 US Gallon).

During Flowering and Fruiting growth apply: 10 ml (2 tsp) per 3.79L (1 US Gallon).

For best results in hydroponics, keep nutrient solution well aerated.

For additional growing information please refer to our website at www.genhydro.com.
