

KoolBloom®

Ripening Formula

2-45-28

7.26 kg (16 lbs)

KoolBloom® is a concentrated plant food supplement formulated to promote intense and abundant flowering. It is designed to enhance the production of robust blooms as well as essential oils and fragrance in many flowers and culinary and medicinal herbs.

KoolBloom is excellent for hydroponics as well as soil gardening. KoolBloom should be used during the last 2 or 3 weeks of flowering to enhance harvest quality and yield. Discontinue KoolBloom 3 - 5 days before harvest.

Usage: ¼ teaspoon per gallon.
(1.25 grams per 4 liters.)

Soil: Add KoolBloom to irrigation water or in addition to a regular feeding program.

Hydroponics: Add KoolBloom to your reservoir with your usual plant food formula.

Caution: A very small amount of KoolBloom will have a big effect on flowering plants. Too much could be harmful.
