

**GENERAL
HYDROPONICS®**

INSTRUCTIONS

Use sparingly - add to nutrient solution, a little at a time, then test pH. Repeat application, then test, until desired pH is achieved.

The quantity necessary for pH adjustment will vary depending on the strength of the nutrient and the purity of the water used to mix nutrient.

**This product raises nutrient pH.
Recommended pH for most plants is 5.5 to 6.5.**

Use General Hydroponics pH Test Indicator for testing nutrient pH.

**pH
